

Traffic & Parking Working Party Report October 2017

Progress with sorting out the parking problems in Henley has been very slow this year. There have been a number of meetings with representatives from Taylor Wimpy who still owns the Croft Car Park. A meeting with the Stratford District Council concerning their ownership and management of the Medical Centre Car Park and a meeting with the owners of the Forward House Car Park at the Northern edge of Henley. There is a desire for the Parish Council to get control of the Medical Centre and the Croft Car Parks and to liaise with the people who run the Forward House Car Park so that a comprehensive car parking management scheme can be rolled out across all three car parks. Various discussions about increasing the number of yellow lines within the Town as and when a conclusion to the ownership and management of the car parks has been concluded.

The overriding desire is to make parking available in the heart of Henley for visitors and shoppers rather than the two central car parks being taken up by people parking there all day every day.
