

Children's Facilities

- EF met with Derek from Sunshine Gyms, a supplier of outdoor gym equipment on Monday 18th February at Riverlands and discussed the three most popular pieces of equipment that he sells. These are the pieces of equipment in the quote. Siting would be on the footpath parallel to the river, initially on the right hand side as you look towards Prince Harry Road. He then said further equipment could be bought at a later date to be sited on the left hand side of the path. This site means that it is close to the children's area but doesn't encroach. Outdoor gym equipment has been mentioned many times when posting on social media to find out how we could develop the parks to encompass all ages.
- EF also met with Adam from Wicksteed on Monday 18th February at Riverlands. Adam put together the original design in 2016 so knew what the plan was for the area. We discussed adding in a few extra items that included an inclusive roundabout, a small trampoline and a parent/toddler swing. See quote and new design. Most of the original design would remain the same.
- He understood the budget constraints and agreed that the work could be done in phases so the residents could see the project was moving forward, which he included in his quote. EF and Adam thought Phase One could be the installation of the zip wire as it is a big piece of WOW equipment that was already in our budget.
