

## **Chairs Report**

### **Local Council Awards Scheme**

As the Parish Council has been so active over the last 12-18 months, it would be good to get this hard work both around projects and procedures recognised through the Local Council Award Scheme.

The documentation for these awards is attached to this file so please read through the documentation and come with questions and/or observations.

I propose that we start with the Foundation Award, which should be reasonably straight forward to achieve and aim to achieve this over the coming 12 months. I am happy to take the lead on this with Ray and intend to attend training around this in May.

The Quality Award will need further work as we need both a qualified clerk and 2/3 of Councillors to be elected so this may need to wait until after the election in 2023. However, I can ask the question at the training, if we can at least begin this process before then with those things being the final two actions to achieve in May 2023.
