

Henley in Arden Barriers and Needs Exercise

Theme	Theme Specific Needs	Theme Specific Barriers
Renewables	Wind farm on the Mount (or Edge Lane)	More incentives on solar panels on domestic houses
	Solar panels for the church	Cost of solar panels
	Grant scheme for home solar	Solar panels for schools and sustainable transport will potentially be owned by council funds
Biodiversity	Planting more wildflowers at allotments or provide seeds	Sustainable habitats (lack of)
	Maintenance for tree planting to enable landowners to reforest	No green space to plant seeds myself or with child
		Too many buildings for nature
		Lack of knowledge of biodiversity
Air quality	Air quality monitors to be positioned by the schools	Clean air - less bonfires remind residents of when to burn and why
Sustainable Transport	Funding for canals	Vehicle charging funding
	More support/volunteers to help clear footpaths	Funding for footpath maintenance and accessibility
	Vehicle charging needs a strategic plan	Cost of transport too high
	East and West bus services	Poor communications between council and bus companies
	Cycle lanes on roads to promote sustainable travel	Reliability of public transport (stagecoach and trains)
	More buses to connect to trains	People continuing to choose to use their own cars rather than the bus
	Cycle lanes on 40mph+ roads - buy some white paint	Lack of bus connecting a barrier to leaving a car at home
	Public transport cheaper but takes a long time to get to other villages (no car)	Cycle lanes on 40mph+ roads. Lack of imagination and white paint

Theme	Theme Specific Needs	Theme Specific Barriers
	Reliable regular public transport east, west as well as north and south	Over reliance on cars
	Need for free parking to help local businesses	Electric vehicles infrastructure, range, charge times
		Sustainable transport links
Waste	Help prevent litter by advertising frequent litter picks.	More bins needed (including recycling bins)
	Mobile phone/computer recycling - help to remove data from devices to enable recycling	Inability to buy single person items in co-op (food waste)
	Recycling facilities	Mobile phone/computer recycling, concern about data protection
	Transparent recycling systems	
	Business recycling bins	
	Recycling bank	
	Recycling for hard to recyle, example clothes via recycling trade	
Planning/Housing	15 minute neighbourhood	Policy constraints for Henley heritage assets
	Housing insulation mass retrofit: funding assistance (part government, part homeowner) as per 1980s housing improvement scheme. Reduction in taxation.	Difficult with listed buildings but very keen for solar/heat efficiency
	Understanding from planning for listed buildings to be more efficient	Lack of funding for retrofit
	More stringent building policy (developers)	Housing association not supportive of rebuilding
	Funding for insulation surveys	Housing association unsupportive of retrofit
		Housing insulation mass retrofit: Money! Lots of it!

Theme	Theme Specific Needs	Theme Specific Barriers
Community Initiatives	More support/volunteers to help at allotments for those less able	
	Funding from Government and community	
	Henley Climate Action and council to put what they are doing and meetings into Henley Matters	
	Coordination of community groups	
Education	Put climate change on school curriculum	
	Talk to schools about these issues	
	Education on how to recycle clothing	
	Education and involve young people in community	
Flooding	Better flood defences	

General Needs	General barriers
Needs more education	Cost youth activity
Brave and radical politicians and policymakers	Lack of political support for change
Council investment	People "not having time"
Consulting expert advice	Lack of Government leadership
Thought! Education! Kindness!	NIMBYism
More integration and support for all	Funding
	Costs!
	Funding
