

## Forward House Group Update – 29.05.2024

Supporting Document Ordinary Meeting 3<sup>rd</sup> June 2024

Email from FHG

Good morning Ray.

We only own beyond the 'bell mouth' of the junction.

So where the trough is currently situated is WCC land I believe.

See the attached old title doc' ( section D) showing our ownership as the red line - set back from the edge of the A3400. The line seems to follow the set back of the green verges on either side.

Hopefully this helps.
