

Beaudesert & Henley in Arden JPC

NDP2 P3 – Community theme

Summary 14/10/2024

Membership:

Simon Woods chair, Sheriden Bevan, Geoff Norman, John Latham, Cllr Rouse.

Co-opted members:

Dan Green, Lauryn Regan

The group has held two meetings. Information gathering has begun on a number of areas pertinent to the community. Individual members are taking responsibility for different sectors, seeking to ascertain what exists, how they are used, any potential for improved or changed use and how they might cope if the population grows. Broadly these sectors are:

- Community facilities
- Community groups
- Medical and Dental facilities
- Schools

In addition a simple survey of residents and those working in Henley is being undertaken starting with an article in Henley Focus in November and a link to an online survey. Posters and other promotion will support this campaign and hard copies will be made available for those unable or unwilling to use an online portal. The objective of the survey is to gather some simple demographic information together with community facility usage, travel and suggestions of what is needed and what works well.

The group aims to report back with interim data early in the new year.
