

Beaudesert and Henley in Arden - NDP2

P5 – Built Environment

Initial Meeting Notes – Monday 30th September

Present – Mark Bevan, Guy Hornsby, Jonathan Dovey, David Tomlinson

Apologies – Roger Cooper

1. There was some really interesting and healthy debate, along with valuable insight, knowledge and observation.
2. As discussed and agreed, our starting point is a collective review of and a response to, the key headlines and those components initially identified.
3. The headlines/topics to be addressed, along with individual responsibilities, as follow –
 - **Transportation (GH)**
 - **Reuse of Buildings (RC)**
 - **Flood Risk/Water Management (GH)**
 - **Heritage Assets (JD)**
 - **Physical Infrastructure (MB)**
 - **Natural Environment (JD)**
 - **Energy/Services (MB)**

The above is not exhaustive and of course, will be modified and developed, as we progress.

4. Next meeting **tbc**.
